

## **Resource Centre Collections and Loans**

### **Policy**

Mentoring Artists for Women's Art houses a growing resource centre available to members and the general public. The focus of the collection is women's visual art history, and feminist visual art theory and criticism. MAWA also collects catalogues and books documenting the works of individual Canadian women artists, particularly Manitoba women artists. The MAWA Resource Centre is home to a limited number of periodicals that are Canadian, visual-arts-related and/or feminist.

MAWA accepts donations to the collection based on its collection criteria. MAWA deaccessions resources that do not meet the collection's policy.

MAWA members are permitted to check out books and periodicals.

### **Procedure**

Use of the MAWA Resource Centre is free of charge. The general public is invited to use these materials on-site.

Information about all of MAWA's holdings is available on-line in a searchable database through the MAWA website.

MAWA's collection is catalogued through Library World.
