

Mentoring Artists for Women's Art Resource Centre Collections and Loan Policy

Mentoring Artists for Women's Art houses a growing resource centre. The focus of our collection is women's visual art history, and feminist visual art theory and criticism. We also collect catalogues and books documenting the works of individual Canadian women artists, particularly Manitoba women artists. As well, the MAWA Resource Centre is home to a limited number of periodicals that are Canadian, visual-arts-related and/or feminist.

Use of the MAWA Resource Centre is free of charge. The general public is invited to use these materials on-site. MAWA members are permitted to check out books and periodicals. Information about all of our holdings is available on-line.
